WEB DEVELOPMENT

SUBMITTED BY

NAINA SETHIA

Amity University Chhattisgarh, Raipur

Acknowledgement

I have taken efforts in this project. However, it would not have been possible without the kind support and help of many individuals and organizations. I would like to extend my sincere thanks to all of them.

I am highly indebted to Netcamp Solutions Private Limited. For their guidance and constant supervision as well as for providing necessary information regarding the project and also for their support in completing the project.

I would like to express my gratitude towards Mr. Santu Purkait, Director: Netcamp Solutions Private Limited For their kind co-operation and encouragement which help me in completion of this project.

I would like to express my special gratitude and thanks to organization persons for giving me such attention and time.

My thanks and appreciations also go to my colleagues in developing the project and people who have willingly helped me out with their abilities.

Name: Naina Sethia

College ID: A809150824045

Netcamp ID: 4250094

College: Amity University Chhattisgarh, Raipur

Date: 04-10-2025

Signature:

```

6.logout.php

```
C:\wamp\www\library\logout.php - Notepad++
File Edit Search View Encoding Language Settings Macro Run Plugins Window ?
1 <?php
2 session_start();
3 session_unset();
4 session_destroy();
5 header("location:login.php");
6 ?>
```

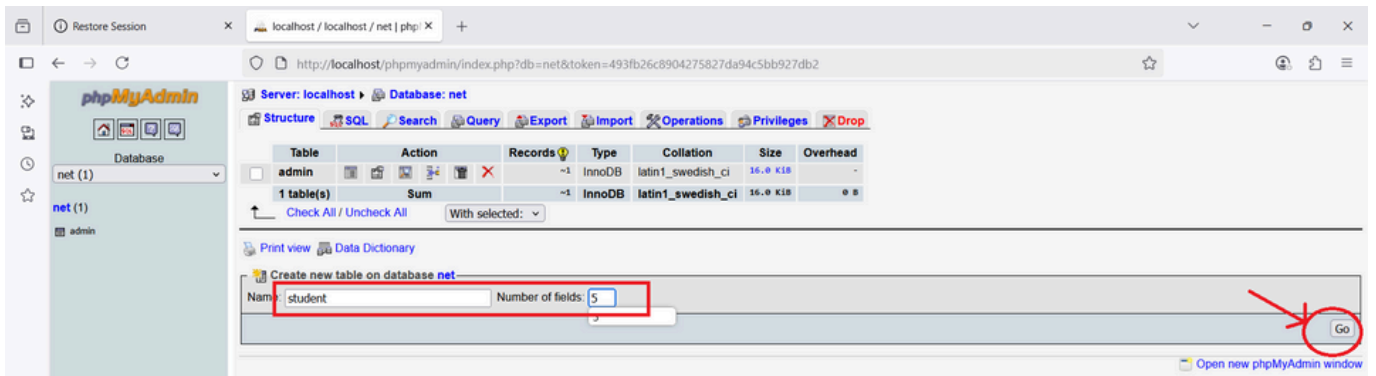

Start the WampServer go to localhost ,
click on phpmyadmin

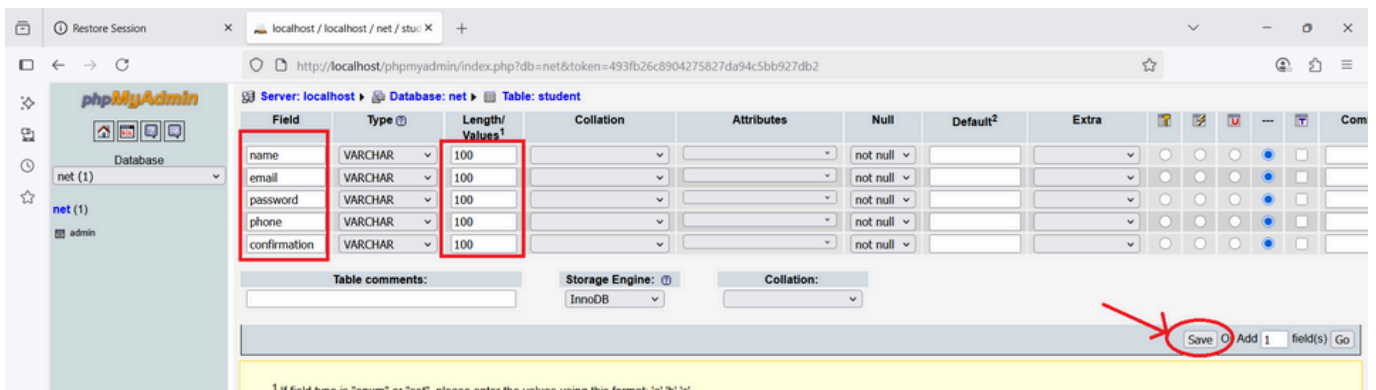

1.Create new database, make two folder one for
student and another for admin

2. Provide name and no of fields, click on go

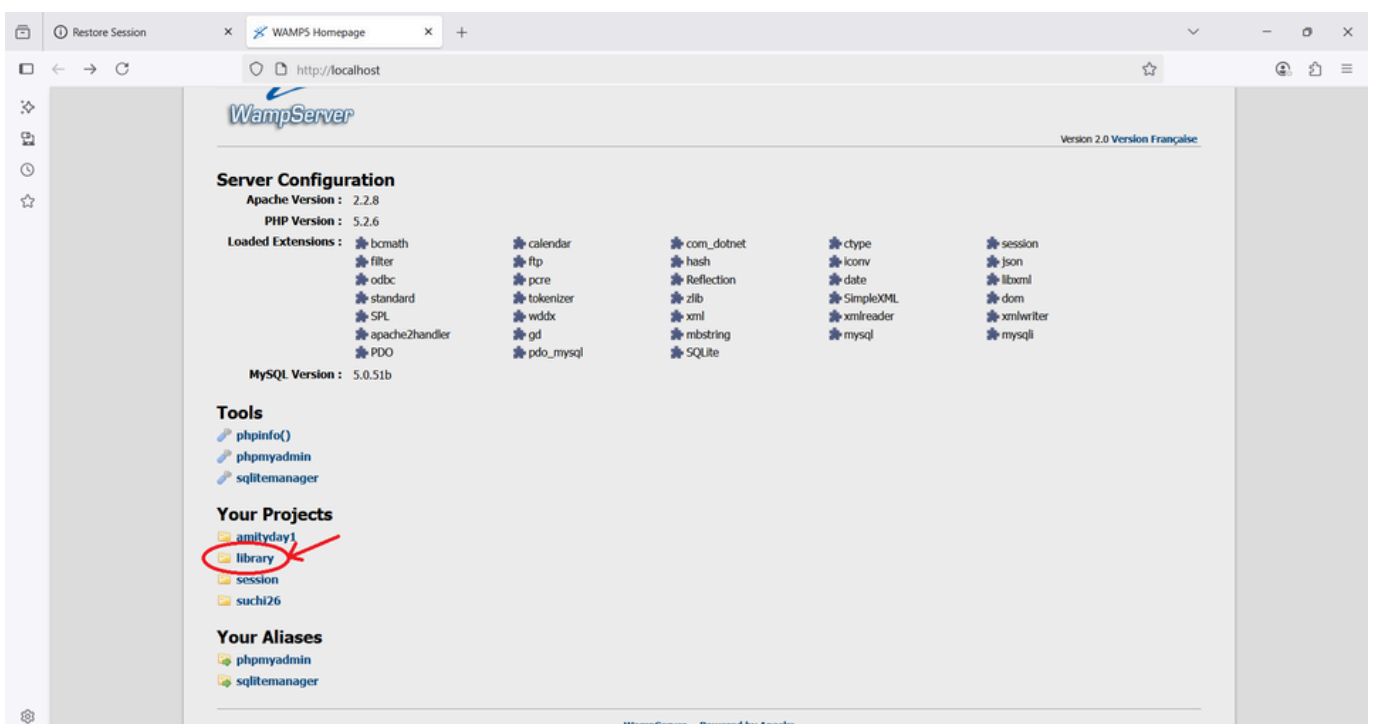

3. Provide all necessary details for student folder , click on save

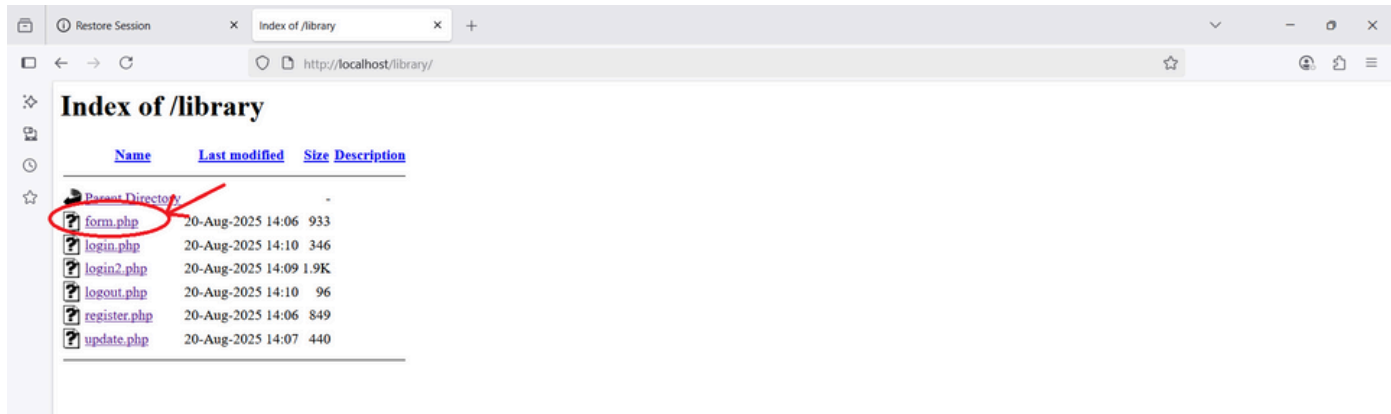

(Similarly for admin folder)

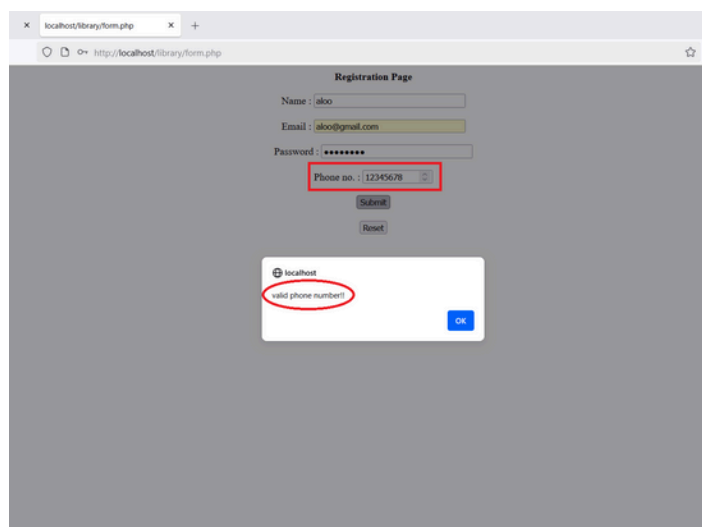

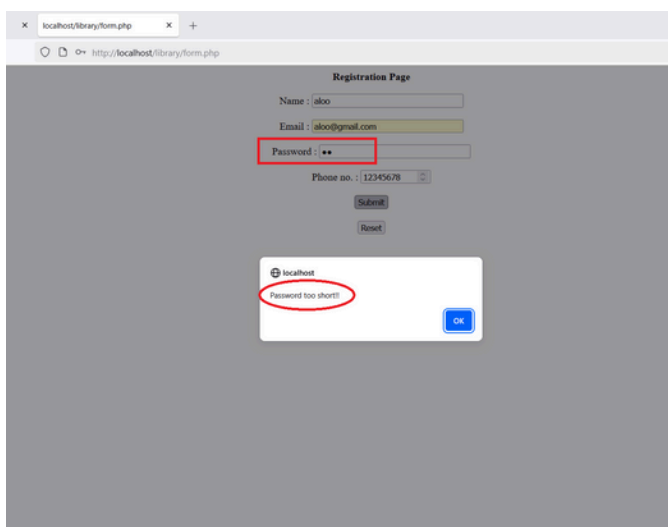

4. Open WampServer, your projects-->click on library

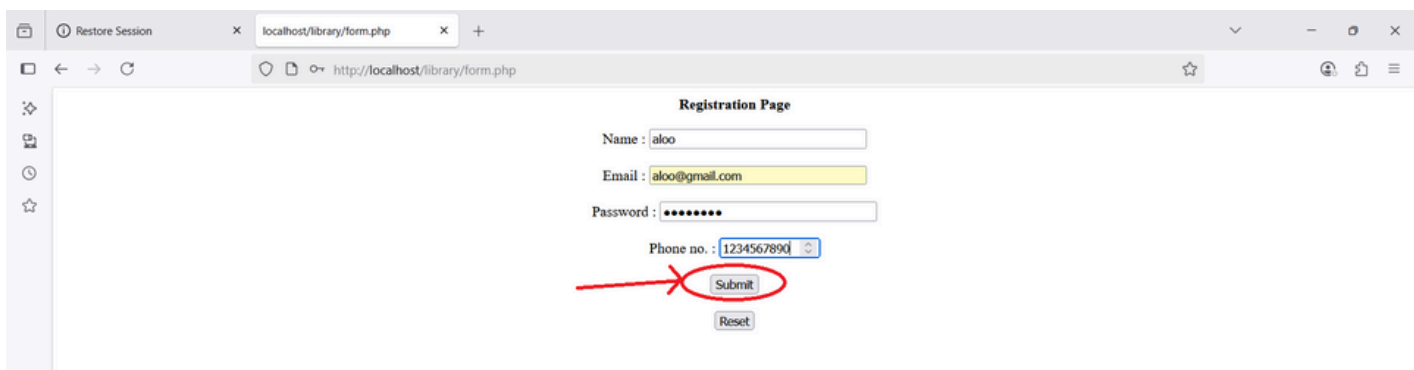

5.Click on form.php

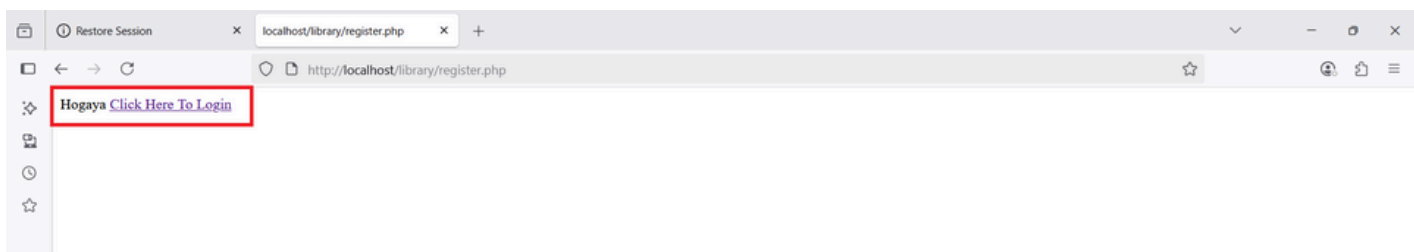

6.Provide name, email, password, phone number(if password is less than 6 digits and phone is less than 10 digit it will notify to user that your password and phone is too short because of javascript

7.After providing details, click on submit

8. Click on click here to login

9. Provide name and password and then click on submit

Restore Session x localhost/library/login.php x +

http://localhost/library/login.php

Login Page

Name : aloo

Password :

Submit

Reset

10. Click on This Link

11. Provide name and pass and then click on submit

Restore Session x localhost/library/login.php x +

http://localhost/library/login.php

Login Page

Name : admin

Password :

Submit

Reset

12. Click on update

Restore Session x localhost/library/login2.php x +

http://localhost/library/login2.php

NAME	EMAIL	PASSWORD	PHONE	CONFIRMATION
aloo	aloo@gmail.com	12345678	1234567890	0Update
aloo	aloo@gmail.com	123456	1234567890	0Update

LOGOUT

13. Provide update save and then logout

Restore Session x localhost/library/update.php?new=aloo x +

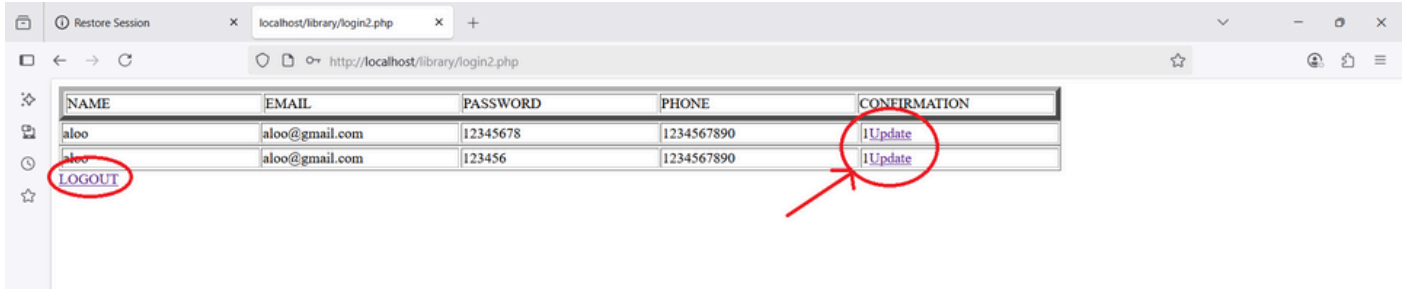

http://localhost/library/update.php?new=aloo

aloo

Save

LOGOUT

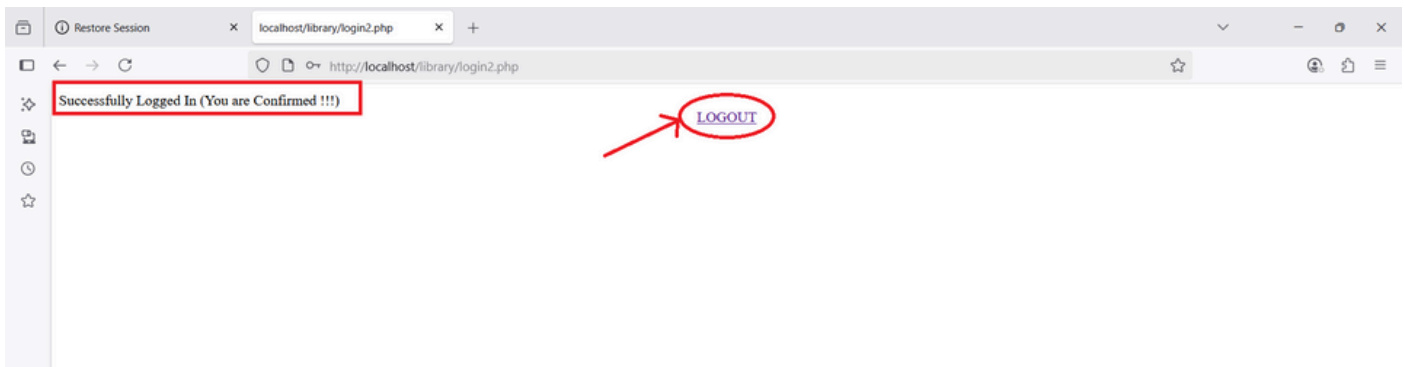

14. Again login and see the confirmation is updated

The screenshot shows a web browser window with the address bar displaying 'http://localhost/library/login2.php'. The page contains a table with the following columns: NAME, EMAIL, PASSWORD, PHONE, and CONFIRMATION. The table has two rows of data. In the first row, the NAME is 'aloo', EMAIL is 'aloo@gmail.com', PASSWORD is '12345678', and PHONE is '1234567890'. The CONFIRMATION column contains a link '1Update'. In the second row, the NAME is 'aloo', EMAIL is 'aloo@gmail.com', PASSWORD is '123456', and PHONE is '1234567890'. The CONFIRMATION column contains a link '1Update'. A red circle highlights the 'LOGOUT' button in the bottom left corner of the page. A red arrow points from the '1Update' link in the first row to the '1Update' link in the second row.

NAME	EMAIL	PASSWORD	PHONE	CONFIRMATION
aloo	aloo@gmail.com	12345678	1234567890	1Update
aloo	aloo@gmail.com	123456	1234567890	1Update

15. Successfully confirmation click on logout

“If the user is registered, then the direct login page will open. If we go to login page without registering via link, the form page will open”

-----Thank you-----
